-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 September 2001.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 7, which is depending upon claim 1, the applicant is claiming an outer peripheral size of the solder bump is set smaller than an inner peripheral size of the through hole, which contradict the new limitation of claim 1, "the through hole is designed to from a constriction in the solder bump between the printed circuit board and the electronic component."

A claim in dependent form shall contain a reference to a claim in dependent form shall contain a reference to a claim previously set forth and then specify a further limitation of the subject matter claimed. A claim in dependent form shall be construed to incorporate by reference all the limitation of the claim to which it refers.

Claim 8 and 9 are rejected as both the claims depend upon the rejected base claim 7.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Matsubara, U. S. Patent 5,726,501.

Regarding claim 1, Matsubara discloses a printed circuit board unit comprising:

a printed circuit board (mounting substrate 110, see figure 1A, column 6, line 15-30);

an electronic component (semiconductor chip 120, see figure 1A, column 6, line 15-30);

a solder bump interposed between the printed circuit board and the electronic component so as to fix the electronic component to the printed circuit board (a solder bump 31, see figure 1A, column 6, line 15-30); and

an insulated film disposed between the printed circuit board and the electronic component so as to define a through hole for receiving the solder bump, wherein the through hole is designed to form a constriction in the solder bump between the printed circuit board and electronic component (a solder resist 13 for preventing solder from flowing away is formed, see figure 1A, column 6, line 15-40).

Regarding claim 3, Matsubara further discloses the insulated film is superposed on the printed circuit board so as to form the constriction right on a conductive pad on the printed circuit board.

Regarding claim 4, Matsubara further discloses the conductive pad comprises a base conductive layer on a substrate of the printed circuit board, and a surface conductive layer having a corrosion resistance higher than the base conductive layer and superposed on a top surface of the base conductive layer (column 6, line 45 to 65).

Regarding claim 5, Matsubara further discloses the base conductive layer is a copper layer (column 6, line 45-65).

Regarding claim 6, Matsubara further discloses the surface conductive layer is a nickel layer (column 6, line 55-60).

***Response to Arguments***

5. Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

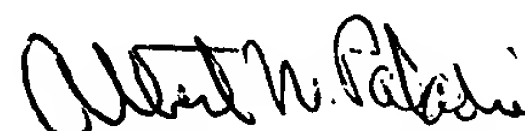

Note: No prior art is applied to claims 7-9 because of the uncertainty as to the proper interpretation of the claims as cited above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ishwar B Patel whose telephone number is (703) 305 2617. The examiner can normally be reached on M-F (6:30 - 4) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeffrey Gaffin can be reached on (703) 308 3301.
